

Argument in Favor of Measure K

VOTE YES on Measure K to maintain the quality of education in our local high schools, help keep kids safe, healthy and engaged in school, and protect your property values and quality of life.

Every day 13,638 students attend high school on Fullerton Joint Union High School District (FJUHSD) campuses, including: BuenaPark, Fullerton, LaHabra, Sonora, SunnyHills, Troy, LaVista and LaSierra High Schools. Whether preparing for college or pursuing career pathways in high-demand skilled trades, our local high school students **DEPEND** on these facilities to get college- and career-ready.

Measure K provides a prudent, responsible plan to complete local high school upgrades so **OUR** kids get the same opportunities as others in the region to compete for college, jobs and careers.

Every local high school will benefit. NO other funding exists to address these needs.

Measure K will:

- **Repair** deteriorated roofs, plumbing, sewer, and electrical systems
- **Renovate** career-training facilities for science, technology, engineering, math and skilled trades
- **Upgrade** classrooms and technology to meet rising college/university admission requirements
- **Modernize** older schools to meet the same academic and safety standards as newer schools
- **Improve** campus safety, security and access for disabled students

TAXPAYER PROTECTIONS are REQUIRED:

- **ALL funds stay local** for FJUHSD schools.
- **Measure K's Project List MUST detail specifically** how the money will be spent.
- Citizens' Oversight, independent audits and public reporting ensure proper spending.
- Measure K meets Orange County Taxpayers Association strict criteria.

In today's economy, good-paying jobs require specialized training and education. With Measure K, college bound students will be able to properly prepare for higher education, and students seeking jobs immediately after graduation, will get the job training that they need.

Please join teachers, parents, alumni, and civic leaders across our community **VOTING YES** to keep our high schools moving forward.

Stand with us! VOTE YES on K.
